Fire Prevention Division

The Fire Prevention Division is tasked with code enforcement, fire inspection, regulating and inspecting construction of new buildings, and inspection of existing buildings, for compliance with the State of New Hampshire Fire and Life Safety Codes. The Fire Prevention Division continues to be the focal point of the Fire Department's efforts to minimize fire loss in the community. This is achieved by the programs that are offered to local businesses, schools, health care institutions, and the public in general.

The methods employed by the Fire Prevention Division in completing these tasks, focus on fire and life safety code education and inspections, plans review, and fire safety education sessions. A customer service based, and service oriented approach of our services, as well as our commitment to the overall safety of our residents and visitors, are driven by the Fire Department's mission to serve our community.
